

Hi Pete 5/18/78

Good morning its 10
To 8 Monday - you
forgot your shoe laces
So here is one pair
if they don't fit tell
me I'll get you others
Bad morning wet
and cool but we
need the rain - I
am sending your
watch in today
hope everything is ok
with you love
Dad

Hi Morning Pete: 5/9/78

Well it's no good
weather again wet
and cold. Did the
shoe laces fit?
how are things going?
will try tonight to
finish spending over
the garden then its
off to work on the
boat. Something is really
wrong with the SW
Battery won't stay charged
more later Love
Dad

Hi Pete

5-9-78
rec'd

Well - got your
tax Back also this
noon got your
watch sent off
you did say it was
the number out and
the position sensor that
was all that was wrong
with it? here are
some things mom
brought this noon.

P.S. Got your Love
#2 letter this
morning Dad

hi Pete: Just
got your letter pre
after lunch. 5/8/78. Will I get
tax and stuff to
done yet today. Will
also get your shoe
laces. This mail is
really nice. Back
on foot pretty fast.
Things will be better
when you have your
stereo set back. The
people I met are real
nice. It does take
some getting used to
when there is a change.
It is too bad that you
could not go to the Rec

(2)

The later hours in
the day are always
the hardest. we will
be there at 3 PM Sat.
Every thing else is
going pretty good.
I'm glad you can
go to the W-9 to
your Doc. this gives
you a nice break.
are they putting
grounds on all your
stuff? maybe not
a bad idea. It's
now 3:00 PM and I
have to take the old

(5)

Sunday School stuff
to church. The middle
of your letter sounds
like it's pretty good
there. This will be
the end of the mail
today - see you tomorrow

much love
Dad

P.S. Don't forget your
prayers - God can help,

Hi Pal: Well pretty nice
Today finished spading over
the garden last night need
to rake it yet - plants and
all are doing fine - I guess
I will have to mow the
lawn soon. Still haven't
gotten to work on the boat
been too cold and wet.
Just thinking ahead a little
about the fireplace I'm wondering
if it would help if we
put insulation around the
fireplace (chimney side) I think
this would help keep the cold
out when it's not on and
also maybe help to put more
heat into the house when
it's burning. Do you know if
the kind of insulation you
put in grandmas attic is
fireproof? Got your letter
yesterday afternoon. Sounds
like your making fast
progress. That's great. That's it
for now.

Love
Dad

Hi Pal:

Just finished a meeting on the DSR cameras. Hail to work out some of the electronic and mechanical things. I just stuck my head out the door and it feels pretty nice. How are things going for you? I worked on boat last night. Boy is that a big job. But I think it will look like a new one when we get done. Your old dog been at the dead animals again I think he just sticks I guess we have to give him a bath again. Still haven't sold the little car. Some guy came to look at and the dumb thing wouldn't start. no sale. Finally got the garden all ready for planting. But I think the soil is too cold yet. I watered the plants in your greenhouse last night and the flat next to the door - the thick tomatoes - are starting to come up. Everything else seems to be O.K.

page 2

We are sure having trouble
with the bus company and the
payment of the insurance money.
They don't seem to want to
pay. We didn't get any letter
from you yesterday (wed.) nor
any yet today (Thur). If your
to busy thats ok. I guess that
about all I got for now.

Love
Dad

Hi Pete

Just got to work
~~Get~~ cold this morning
I talked to Mrs
Loremy and she
will get a
teacher for the rest
of this month for you
she said to say hello
Drop me a line
if you get time.

Love
Dad
