Welcome to the 1972-73 Theatre Season.

The preparation of "Detective Story" has been a valuable study in citizen-police relationships for all of us concerned with the show. Not only are we more aware of the complexity of this relationship, but we were also confronted with the drastic changes that have taken place in the last thirty years in the attitudes of police and the community.

We are particularly grateful to the Rochester Police Department for the assistance and advice they have given us in an attempt to make not only procedures, but also attitudes, authentic. And a special "Thank you" to Patrolman Arthur Magruder for doing such an excellent job as a technical advisor.

We consider "Detective Story" a highly moralistic story and have attempted to present it in that way. Now we hope we can share some of the insights we have attained with you.

The posters represent the creative abilities of Mr. Dale Kohlstedt and Mr. Gary Anderson who are new members of our Art Department, and the set painting was done by Mr. Arthur Auer, a new member of the Speech Department. We welcome them and their talent.

Mr. Dwain Johnson
Director
